

PMT Readout Test Stand  
and  
Decoder / Encoder Package

# PMT Readout Test Stand

- Preparation: still work in progress
  - Yesterday / Today ... slow-readout & XMIT running
    - ▶ Testing with two pulses with various width/delay
    - ▶ Benchmarking for  $\sim o(1e3)$  events / run
    - ▶ More test during weekend suggested by Chi
  - Decoder & analysis made in a framework
