Generic Instructions for LOCAL H323 Connections (i.e. Polycom)
Quick Start Guide

- From your computer open http://evo.caltech.edu
- Login using your account or dedicated room account

Before joining a meeting select Koala, then Preferences in the pull down menu.

Select the Local A/V Client tab.

Select EVO ExtCall button.

Replace XXX.XXX.XXX with your IP address

Close window.

If your PC is wireless or a low end machine you may want to select “Connect through Panda”.

Note: there may be firewall issues and other limitations using this method.

Use this page as a guide. You may have to lower the Bandwidth setting from the default (1Mbps).
• Find your meeting in a community you’re subscribed to or from a provided URL.
